

Bury Rangers – 3D Sculpture in felt - Buzzards

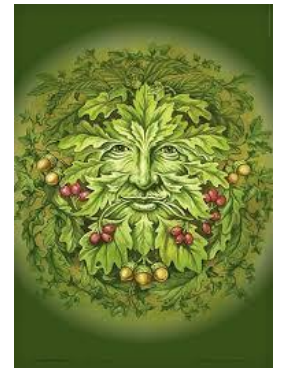

carding	Brushing the wool to make sure the fibres are all going in the same direction.
dye	The colour which is used to change the colour of the wool.
felting	The process of making carded wool join together to create one new material
lanolin	The oil that is part of the wool. It helps to make the wool waterproof.
needle felting	The process of using a needle to stab into the wool to make it join together.
tease	To pull out pieces of wool.
wool	This usually comes from a sheep or occasionally a goat. It is used to make clothing, rugs, carpets, seat covers and for crafting. Each breed of sheep has wool with different properties – some are more waterproof, some softer, some warmer.

The Green Man

The Green Man is an ancient symbol of the forest and nature. He symbolizes regrowth and the fact that new life emerges every springtime.

Images of green men can be found in painting, sculpture and often found among the grotesques on churches and cathedrals.

A sheep is sheared

The wool is cleaned

The wool is dyed

The wool is carded

The process of creating felt

Shapes are cut out

The wool is rolled

The wool is rubbed with water and soap

Needle felting is another way to join wool together.
