Friends of the Honey Bee Newsletter &

THE BRITISH BELLEVILLE

Vol. 4 SummerTerm 2024

Hello sunshine!

This year has seen so many new groups join our 'Friends of the Honey Bee' family! It's very exciting to know that

interest in the FOHB continues to grow. **Let's keep sharing the buzz!**

In this FOHB Newsletter, we share more ideas for projects you can try. Keep sending in news and updates; it's a great way to share who you are and what you're doing.

And 'thank you' to everyone who sent in ideas and pictures for this edition.

Please email your news, pictures and updates to schools.officer@bbka.org.uk

Help protect our pollinators from the

Asian Hornet

Learn what the Asian Hornet looks like and if you see one please

report it

See page 3 for further information

April to July

Spring has sprung and summer is on it's way. All around us, nature is filled with sounds of insects busily building, burrowing, searching and harvesting.

Different flowers produce different coloured pollens and attract different insects.

Which plants could you grow this term?
Have you tried growing **sunflowers**?
They don't produce much nectar but bees love them because they produce LOTS of pollen, which bees need to raise their brood! Perhaps you'd like to grow **bee balm**, although some people call it **bergamot**. It smells like a mix of mint and citrus and produces lots of nectar, which bees collect and turn into honey.

For more ideas about bee-friendly plants for summer months visit our <u>summer</u> <u>plants</u> webpage.

Bee balm (Monarda didyma) is another plant bees adore. It produces lots of **nectar** for pollinators!

Seed in a Jar Summer Activity

Did you make the colourful cardboard insects last term? (The link is here if you missed it)

Now the weather is warmer, new life is bursting out all around. You can watch it too, right in front of you - with your own seed in a jar activity - growing seeds like nasturtiums, broad beans or runner beans. You will need: Kitchen paper and an empty glass jar or plastic cup; strips of cardboard and newspaper; scissors; water.

Choose a large seed, like a broad bean, runner bean or nasturtium. And wait for the miracle of nature to happen.

For more activity ideas, visit the *BBKA Activities page* here

Welcome to new FOHB members

Welcome to our newest members.

We are so pleased you have joined us.
You can proudly tell everyone you are **Friends of the Honey Bee** - and all the wonderful things you
are learning about bees and other insects.

We all care about the environment and our amazing pollinators.

Sharing our passion for the wonders of nature and helping to educate our friends, family and communities is an important job.

Together we **can** make a difference!

Friends of the Honey Bee Updates &

~ Bees in the Curriculum ~

If you are looking for new and interesting bee-based ideas for the classroom this term, try our Bees in the Curriculum pages, packed with free resources designed for **Key Stages 1 and 2.**Explore worksheets, quizzes, videos and many more useful resources covering Science, Environmental Science and Understanding the World.

~ Arc School Ansley ~

Arc School Ansley sent in a delicious recipe for Honey Fudge. They also made Honey Fudge Sauce and Honey Cake, using their own honey, and held their first ever Honey Day in November.

Honey Fudge Recipe

Ingredients:

454g (1 lb) granulated sugar 140 ml (5 fl oz) evaporated milk 57 g (2 oz) honey 57 g (2 oz) butter A good pinch of salt A sugar thermometer

Method:

- 1. In a very large saucepan, boil the sugar, salt and milk for 5 minutes.
- 2. Add the honey and re-boil the mixture until it reaches the 'soft ball' stage at 115°C (240°F).
- 3. Add butter to the mixture and allow to stand till it is lukewarm.
- Beat the mixture until it is creamy, and spread into a greased dish.
- 5. When it is nearly set, cut the fudge into squares.

Do you have any honey recipes to share with us, like Arc Ansley?

Send them in to schools.officer@bbka.org.uk

And Inspirations

~ World Bee Day ~

Saturday 20th May, will be the 5th World Bee Day.

It is a day for raising awareness about the harmful effects of pesticides, climate change and habitat loss - and what we can do to reverse this.

How can you celebrate World Bee Day 2024 in your school?

If you're looking for ideas to bring the buzz of World Bee Day into your classroom, here are a few ideas:

Talk in assembly about pollination and how bees are useful to us for producing food.

Plant bee-friendly flowers in your school garden, such as lavender and lilacs.

Build a bee hotel in class with reeds or sticks.

Visit a local beekeeper to learn how honey is made.

Stage a honey tasting test in your class and try different varieties of honeys.

Stickland's Primary shared this clever idea for a **Bee-themed Story board**

~ Bee-themed Story Board ~

At Stickland's Primary creativity has been flowing! They sent pictures of their creative writing and a **Story Board** too. Story

boards are a great way to combine art and writing to tell a story - a bit like making your own cartoon!

Create your own story boards and tell a tale using words and pictures. Will you write about your favourite insect or a secret garden? Let your imagination run wild.

The **first World Bee Day** was

in 2018,

after a clever idea from people in Slovenia in 2017.

They chose 20th May to celebrate a famous beekeeper, Anton Jansa, born there in 1773.

Asian Hornet

The Asian Hornet is a highly aggressive predator which poses a significant threat to honey bees and other pollinators in the UK.

WE NEED YOUR HELP!

Learn how to identify Asian Hornets
Know how to report any sightings
Help to spread the word - tell your
family & friends

- Dark abdomen with wide orange stripe on 4th segment
- Yellow tips to legs
- Head black with orange face
- Thorax black & velvety

TAKE A PHOTO IF IT IS SAFE TO DO SO REPORT VIA THE ASIAN HORNET WATCH APP OR BY EMAIL TO: ALERTNONNATIVE@CEH.AC.UK
